DEVIN JODIYUDANTO

DevOps Engineer | Cloud Engineer

Bekasi, Indonesia devinjody@gmail.com 083872502379 linkedin.com/in/devinjodiyudanto github.com/jodyys

PROFESSIONAL SUMMARY

DevOps Engineer experienced in deploying and managing containerized workloads across multi-cloud Kubernetes environments, including GKE, EKS, and TKE. My core focus is on building reliable CI/CD pipelines, automating processes, and integrating DevSecOps practices to ensure secure application delivery. I am highly interested in system observability and continuously improving infrastructure reliability.

TECHNICAL SKILLS

Cloud Platforms:	Amazon Web Services (EKS, EC2, IAM, VPC), Google Cloud Platform (GKE)
Container Orchestration:	Kubernetes (GKE, EKS, K3s), Docker, Docker Compose
IaC & CI/CD Pipelines:	Terraform, Azure DevOps Pipelines, Jenkins, Ansible, Git, Docker Hub
OS & Scripting:	Linux (Ubuntu), Bash Scripting
DevSecOps & Security:	SonarQube (SAST), Trivy, Gitleaks, Azure Key Vault, FortiGate Firewall, FortiWeb
Monitoring & Logging:	Prometheus, Grafana, Kibana, Node Exporter, cAdvisor

WORK EXPERIENCE

PT Link Net Tbk

Tangerang, Indonesia July 2026 – Present

DevOps Engineer

- Managed production Kubernetes clusters across **GKE**, **EKS**, and **TKE**.
- Maintained and updated **Azure DevOps** CI/CD pipelines for application deployment.
- Managed Kubernetes resources including Deployments, Services, Ingress, ConfigMaps, and Secrets.
- Troubleshot production issues including `CrashLoopBackOff`, `ImagePullBackOff`, and `CreateContainerConfigError`.
- Performed Kubernetes operational support including rolling updates, pod restarts, deployment validation, and configuration changes.
- Worked with **Azure Key Vault** and External Secrets for secure application configuration.

PT Buana Media Teknologi

Jakarta, Indonesia August 2025 – July 2026

DevOps Engineer

- Set up and configured system monitoring and log analytics using **Prometheus, Grafana, Kibana, FortiWeb**, and **FortiGate** for infrastructure observability.
- Automated the deployment of monitoring agents (**Node Exporter, cAdvisor**) across 7 Linux servers using **Ansible** playbooks.
- Configured and managed **FortiGate** firewall security, web filtering rules, security profiles, firmware updates, and Data Loss Prevention (DLP) policies.
- Configured **Prometheus** alerting rules and customized **Grafana** dashboards for real-time infrastructure threshold monitoring.
- Wrote **Bash** scripts and cron jobs for scheduled NAS backups, supporting data integrity and disaster recovery readiness.

PERSONAL PROJECTS

Travel Destination Hub – DevSecOps CI Lab Project

github.com/jodyys/Travel-Destination-App

- Built and containerized a full-stack application with React, Node.js, and PostgreSQL using Docker and Docker Compose.
- Built an automated Jenkins CI pipeline incorporating security scanning tools: **SonarQube** for SAST code quality, **Gitleaks** for secret detection, and **Trivy** for container vulnerability checks.
- Configured automatic building and pushing of Docker images to Docker Hub registry upon successful pipeline completion.

Docker | Jenkins | SonarQube | Trivy | Gitleaks

Track App – CI/CD & Kubernetes Lab Project

github.com/jodyys/Track-App

- Built end-to-end CI/CD pipelines using Jenkins for deployment to lightweight Kubernetes (K3s) environments.
- Deployed and managed application workloads in K3s cluster, ensuring proper ingress routing and resource isolation.
- Set up infrastructure monitoring using **Prometheus** and custom **Grafana** dashboards with Node Exporter for host metrics.

Kubernetes (K3s) | Jenkins | Prometheus | Grafana | Node Exporter | Docker

EDUCATION

Universitas Terbuka

Jakarta, Indonesia Aug 2026 – Present

Bachelor's Degree, Sistem Informasi

Universitas Bina Sarana Informatika

Bekasi, Indonesia Aug 2018 – Nov 2021

Associate Degree in Information Systems

GPA: 3.54 / 4.00

COURSES & TRAINING PROGRAMS

DigitalSkola (Bootcamp) Jul 2025 – Sep 2025
DevOps Engineer Intensive Program | Bekasi, Indonesia

Orbit Future Academy Mar 2026 – Jun 2026
AWS re/Start Program | Jakarta, Indonesia

CERTIFICATIONS & CREDENTIALS

- **AWS re/Start Graduate Badge** – Amazon Web Services
- **Docker Foundations Professional** – Docker Inc.
- **DevOps Engineer Certification** – DigitalSkola
